SUICIDE: SOUTH CAROLINA 2016 FACTS & FIGURES

Consider these facts:

Number of deaths in 2016	Rate per 100,000 population	Rank among states
108	12.1	12th

Suicide cost South Carolina's total of \$2.5 billion in 2016, or 2.5% of the state's gross state product. The average cost of a suicide is \$23,125 per suicide death.

IN SOUTH CAROLINA, SUICIDE IS THE:

- 14th leading cause of death for males
- 17th leading cause of death for females
- 10th leading cause of death for children
- 11th leading cause of death for adults

On average, one person dies by suicide every 11.5 hours in the state.

At least 100,000 people die by suicide in South Carolina annually. This number is the same as the number of people who die from heart disease in the state.

AMERICAN FOUNDATION FOR SUICIDE PREVENTION

50 million years of work could be lost to anxiety and depression

World Health Organization says that without proper treatment, 12 billion working days will be lost globally between 2019 and 2030.

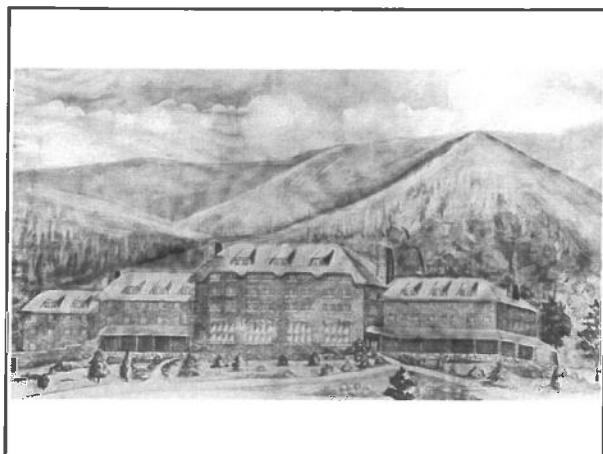

Global development is hampered by depression, says World Health Organization.

the guardian

World Health Organization says that without proper treatment, 12 billion working days will be lost globally between 2019 and 2030.

Global development is hampered by depression, says World Health Organization.

The analysis, led by the World Health Organization (WHO), found that untreated anxiety and depression cost the global economy \$4.5 trillion a year.
