Disclosure Statement

Kathy Janies

- I have no relevant financial relationships with the manufacturers(s) of any commercial products(s) and/or provider of commercial services discussed in this CME activity.
- I do not intend to discuss an unapproved/investigative use of a commercial product/device in my presentation.

PreSIPS2 Measurement

Question 2 is answered by Measurement

→

Model for Improvement

What are we trying to accomplish?

How will we know that a change is an improvement?

What change can we make that will result in improvement?

PreSIPS2 Measures

Improvement in... Health Supervision Care at the 9 and 24 month visit

Measure

Elicit and Address Patient/Family Concerns and Needs

(9 and 24 months)

Corresponding Chart Review Tool Questions

- **Elicit and Address Patient/Family Concerns and Needs**
 - Is there documentation in the medical record indicating that patient/family concerns were elicited at the most recent health supervision visit?
 - If the parent expressed concerns, is there documentation in the medical record that concerns were addressed?

Measure

Perform Age Appropriate Risk Assessment

(9 and 24 months)

Corresponding Chart Review Tool Questions

- **Perform Age Appropriate Risk Assessment**
 - Is there documentation in the medical record indicating that all age appropriate risk assessments were performed at the most recent health supervision visit?
 - If any risks were identified, is there documentation in the medical record that these risks were addressed?

Measure

Provide Anticipatory Guidance

(9 and 24 months)

Corresponding Chart Review Tool Question

- **Provide Anticipatory Guidance**
 - Is there documentation in the medical record that at least 3 of the Bright Futures Priorities (anticipatory guidance) were discussed at the most recent health supervision visit?

Measure

Elicit and Discuss Family Strengths

(9 and 24 months)

Corresponding Chart Review Tool Questions

- **Elicit and Discuss Family Strengths**
 - Is there documentation in the medical record indicating that family strengths were identified at the most recent health supervision visit?
 - If family strengths were identified, is there documentation in the medical record that family strengths were discussed at the most recent health supervision visit?

Measure

Perform Age Appropriate Medical Screening

(9 and 24 months)

Corresponding Chart Review Tool Questions

- **Perform Age Appropriate Medical Screening**
 - Was weight for length measured **and** plotted on the percentile curves according to age and sex? (9 mos chart)
 - Was BMI measured **and** plotted on the percentile curves according to age and sex? (24 mos chart)

Measure

Perform Oral Health Risk Assessment

(9 and 24 months)

Corresponding Chart Review Tool Questions

- **Perform Oral Health Risk Assessment**
 - Is there documentation in the medical record that an oral health risk assessment was performed by the 9 month health supervision visit? (9 mos chart)
 - Does this patient have a dental home? (24 mos chart)
 - If "No", is there documentation in the medical record that an oral health risk assessment was performed at the 24 month health supervision visit? (24 mos chart)

Measure

Evaluate and Discuss Social Determinants of Health

(9 and 24 months)

Corresponding Chart Review Tool Questions

- **Evaluate and Discuss Social Determinants of Health**
 - Is there documentation in the medical record that questions about social determinants of health were asked at the [9/24] month health supervision visit?
 - If concerns about social determinants of health were identified, is there documentation in the medical record that concerns were discussed at the [9/24] month health supervision visit?

Measure

Perform Maternal Depression Screening and Follow Up

(9 month only)

Corresponding Chart Review Tool Questions

- **Perform Maternal Depression Screening and Follow Up (9 mos chart only)**
 - Is there documentation in the medical record that at least 1 maternal depression screen was completed by the patient's 9 month health supervision visit?
 - If a positive screen was identified, is there documentation in the medical record that a follow up plan was established?

Measure

Perform Developmental Screening and Follow Up

(9 month only)

Corresponding Chart Review Tool Questions

- **Perform Developmental Screening and Follow Up (9 mos chart only)**
 - Is there documentation in the medical record that appropriate developmental screenings were completed at the 9 month health supervision visit?
 - If a positive screen was identified, was a follow up plan established and documented in the patient's medical record?

Measure

Perform Autism Specific Screening and Follow Up

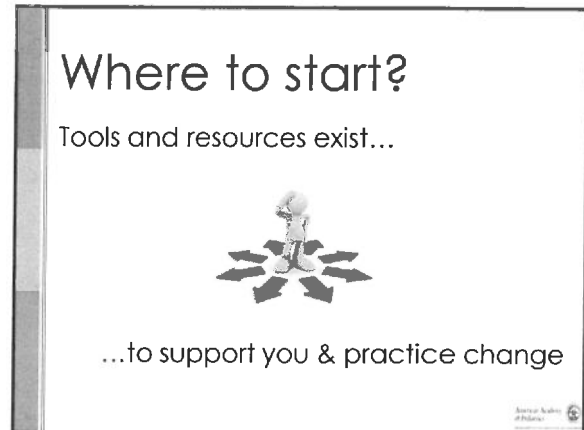

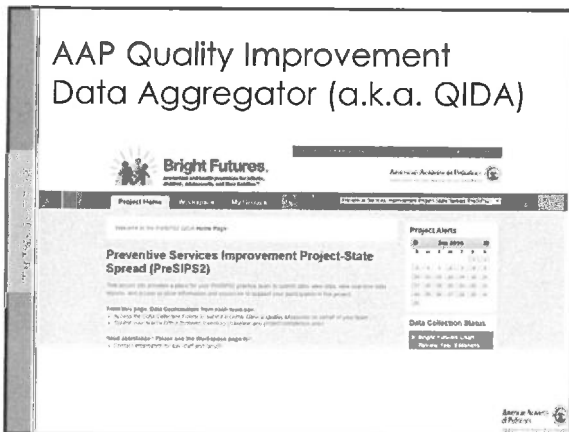

(24 month only)

Corresponding Chart Review Tool Questions

- **Perform Autism Specific Screening and Follow Up (24 mos chart only)**
 - Is there documentation in the medical record that age appropriate autism screenings were completed for this patient at the 24 month health supervision visit?
 - If a positive autism screen was identified, was a follow up plan established and documented in the patient's medical record?
