

QTIP UPDATE 2019

RAMKUMAR JAYAGOPALAN, M.D.

2019-WHAT DID WE FOCUS ON?

BREASTFEEDING RATES

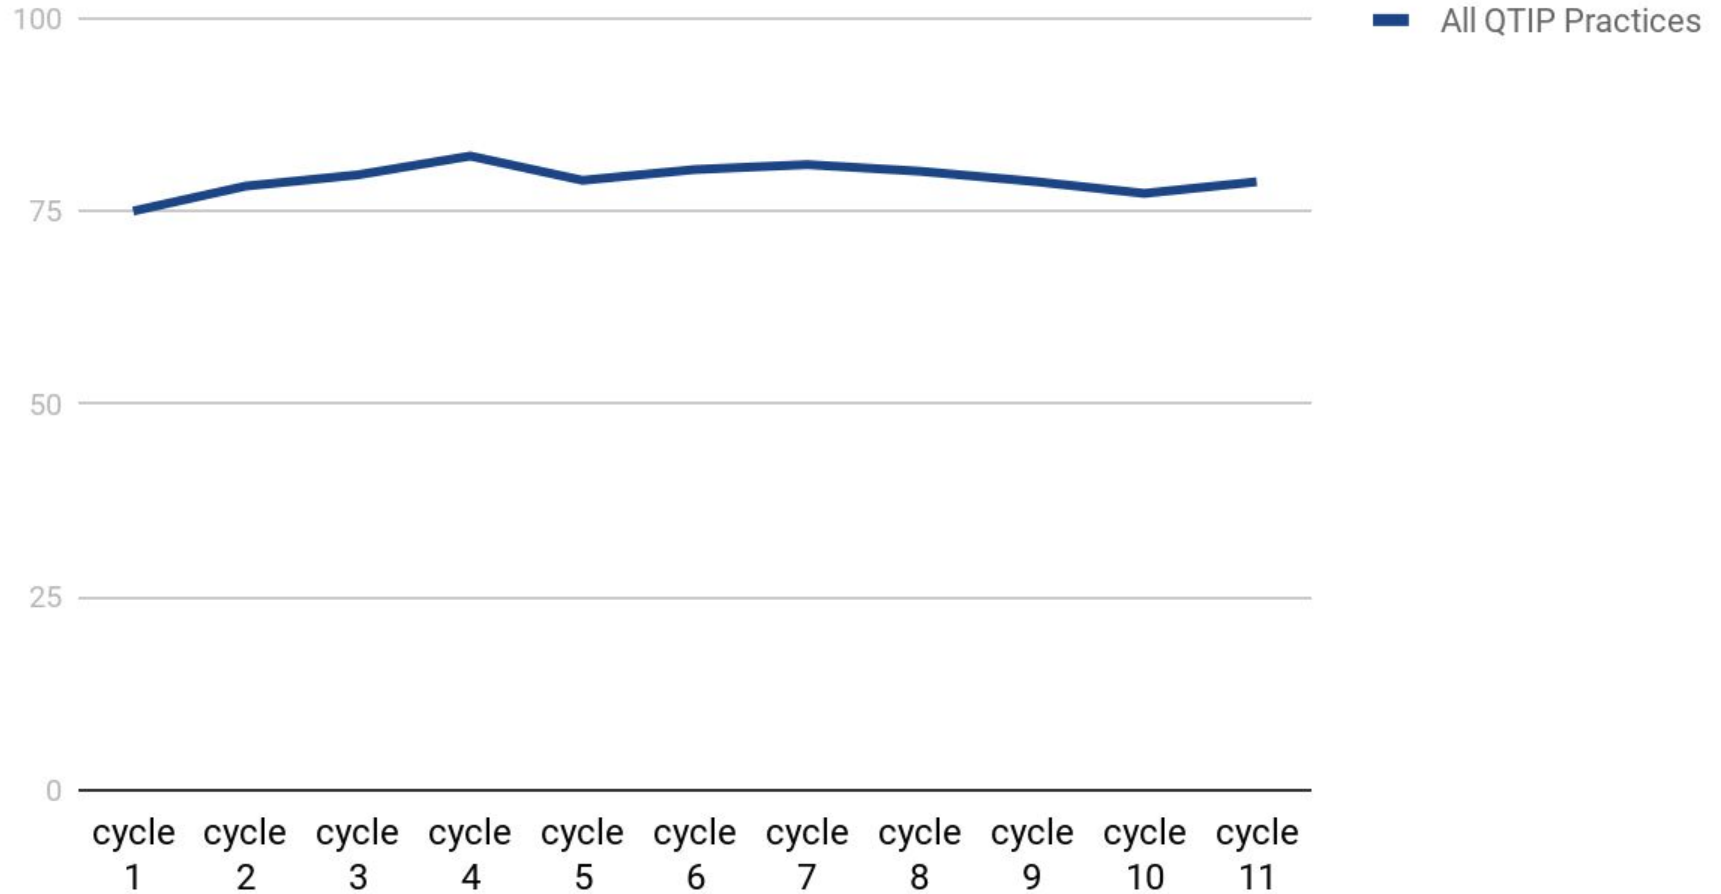

- Initiation, 1mo,4mo,6mo rates
- Breastfeeding plan
- Lactation referral
- PostPartum depression screening
- Reach Out and Read
- Smoke exposure

ADHD

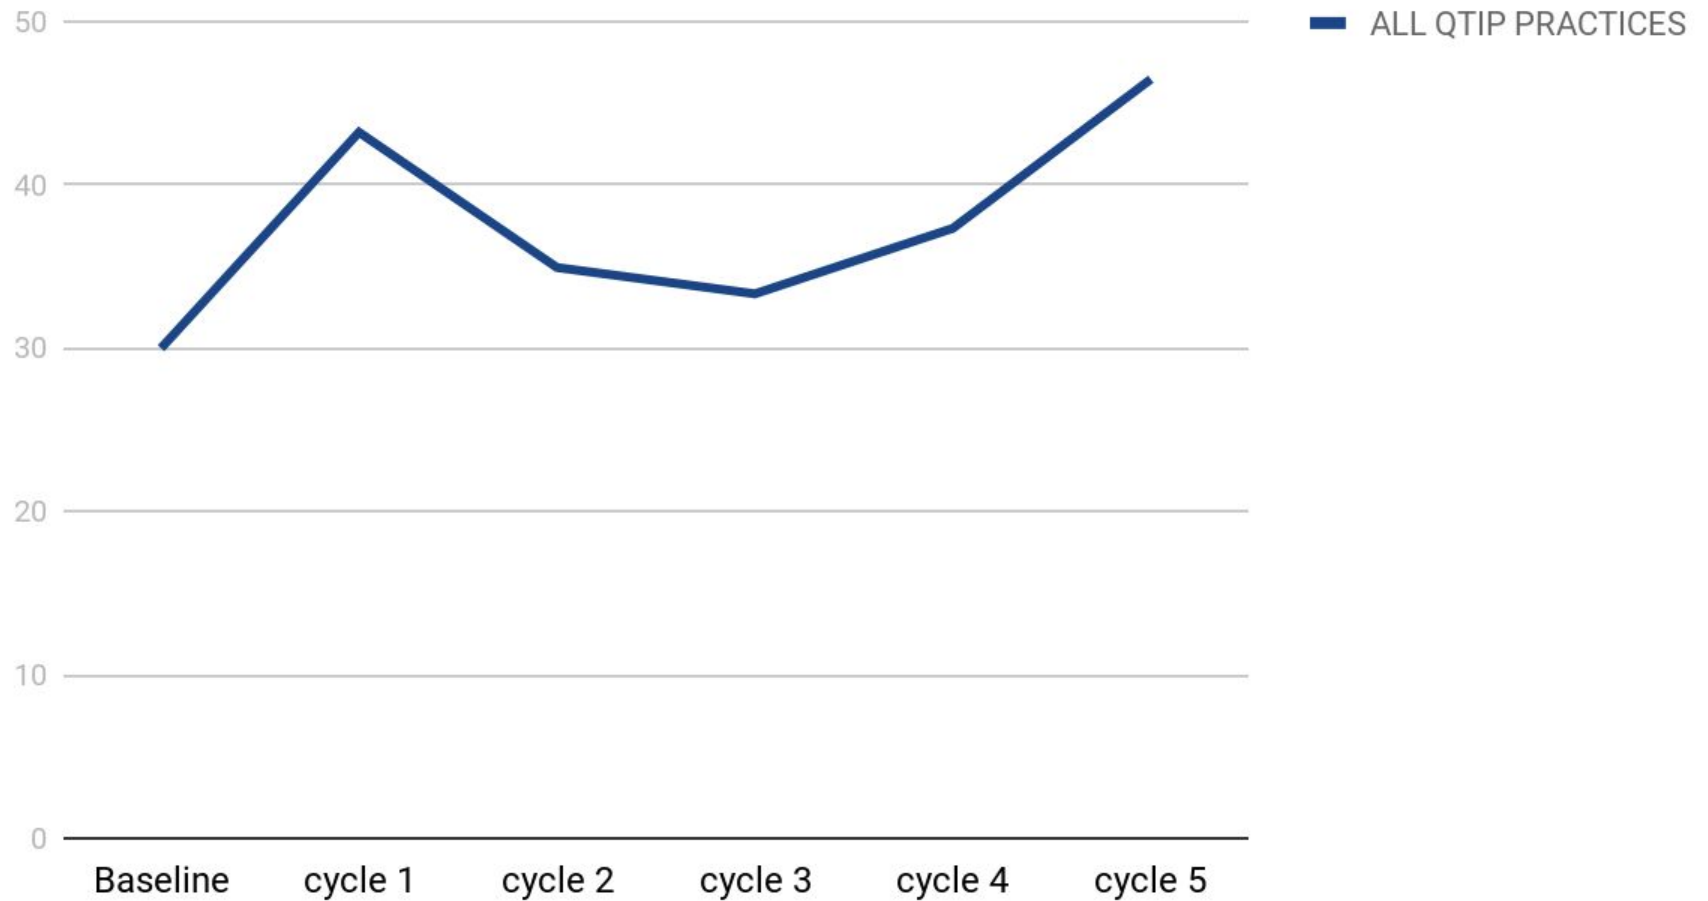

- 30 day follow up after initiation
- Use of Standardised scales
- Identifying and addressing co-morbidities
-

WHAT DID THE QIDA SAY?

Any Breast Feeding

Breast Mil at 6 months

Life lesson

$2+2=4$ but $1+3=4$

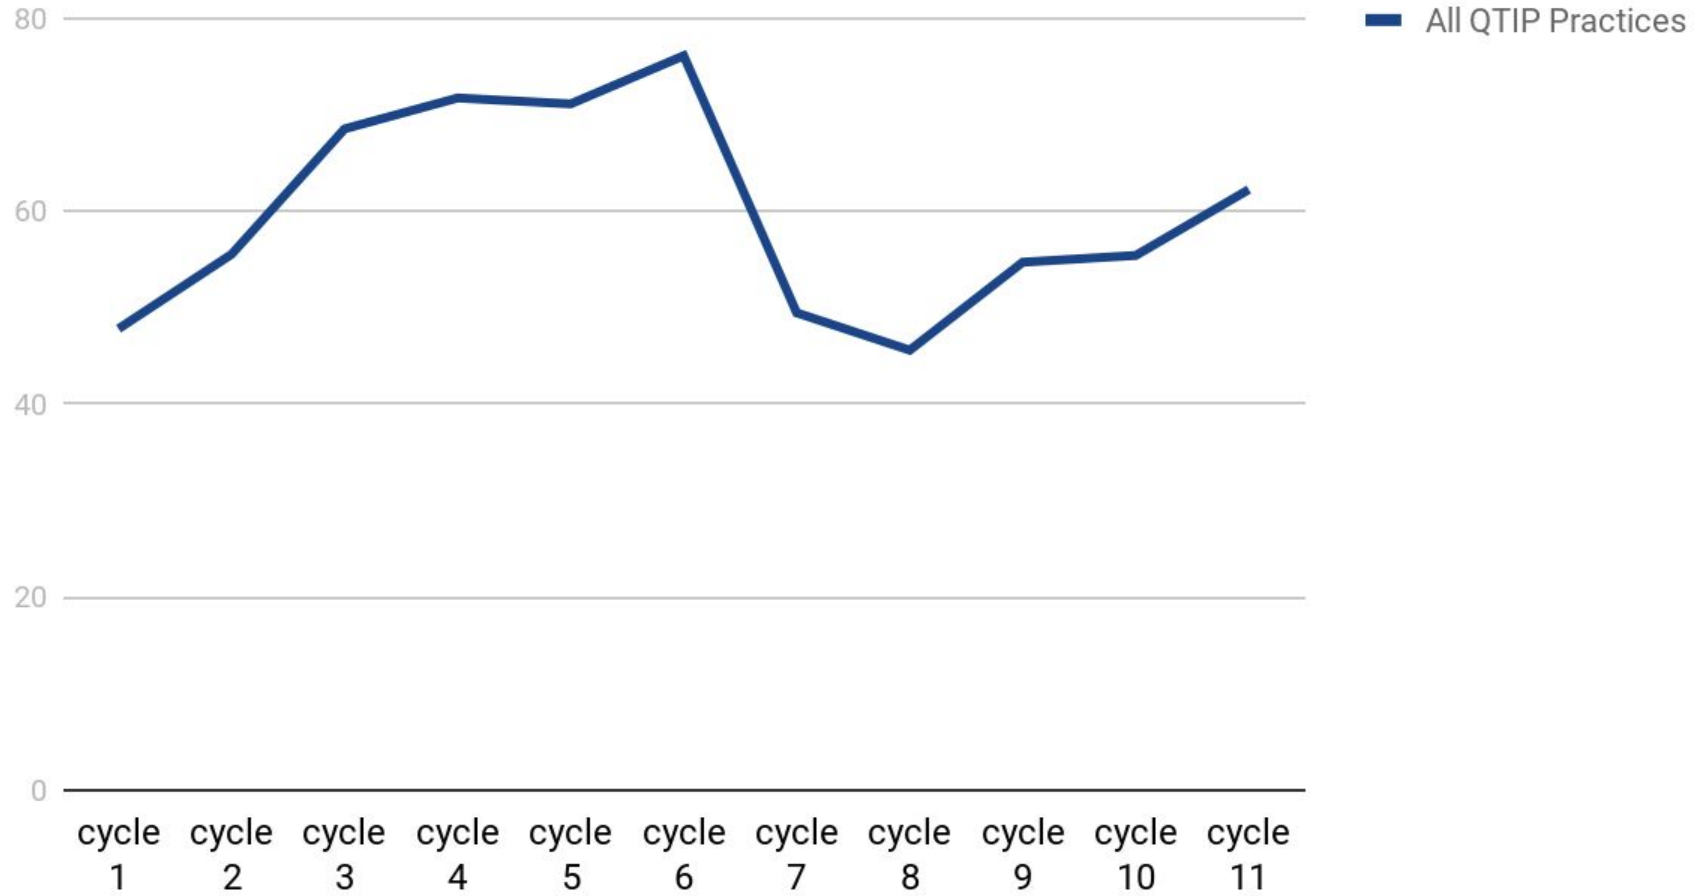

The lesson?

**There's more than one
way to do something.**

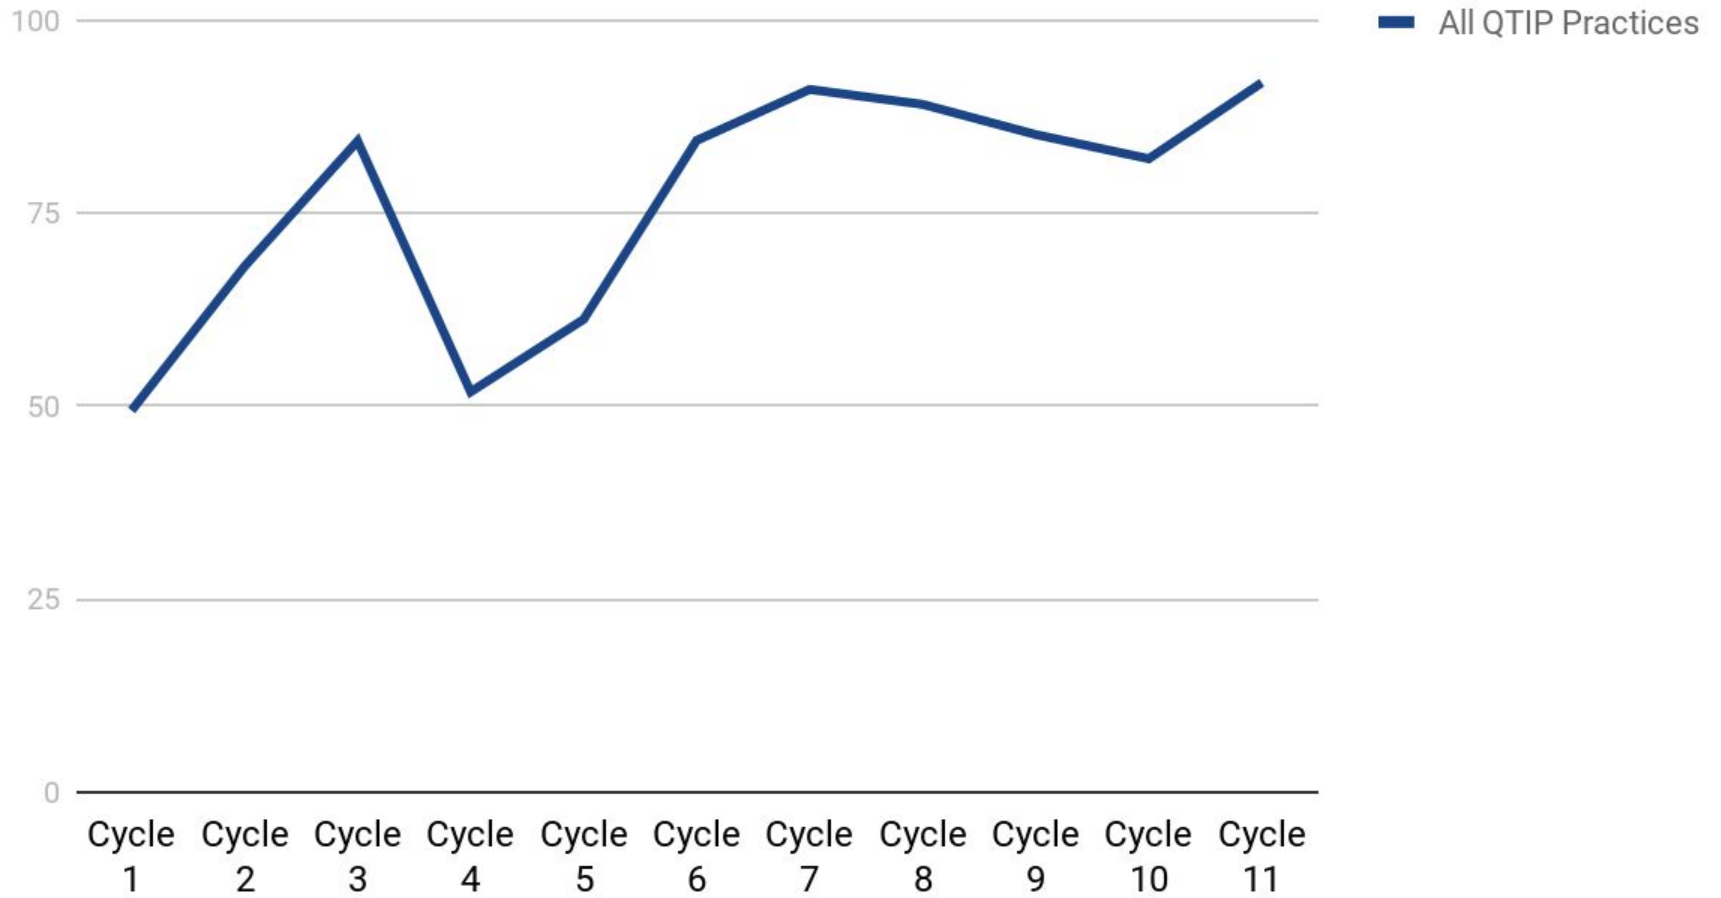

HOW THEY DID IT

- LACTATION CENTERS- Referral and feedback loop established
- Using dedicated Lactation counsellors
- Using the Hospital's Lactation consultant
- Using Lactation trained staff
- Breastfeeding plan
- Promoting Breastfeeding friendly Practice
- Coordinate with local WIC Lactation people

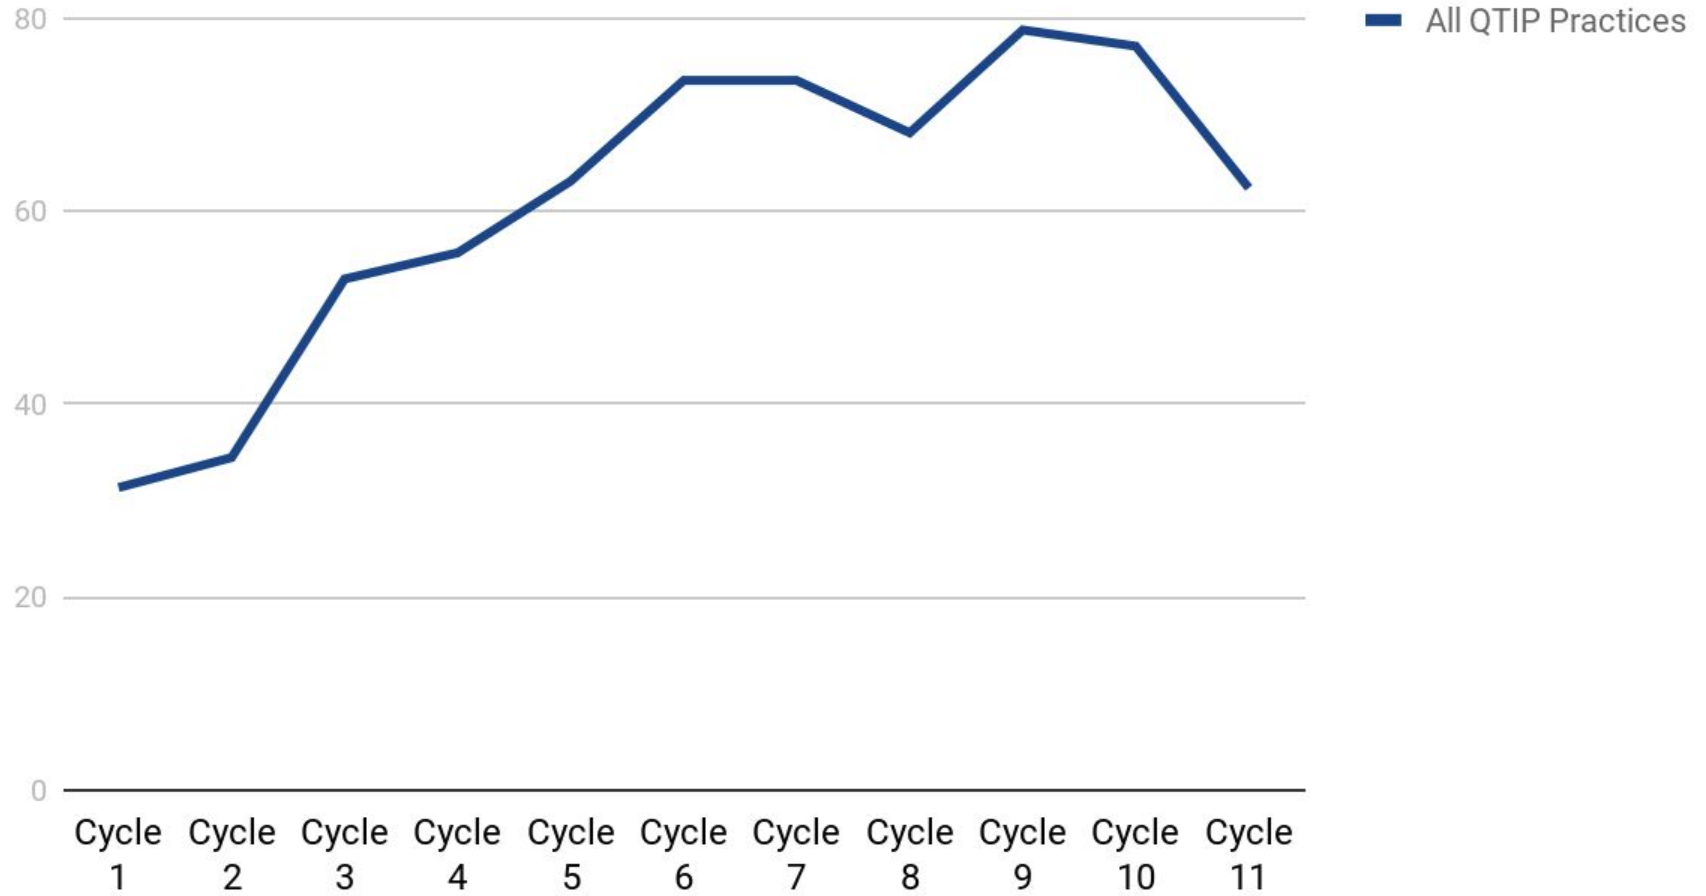

Breast Feeding Plan in Chart

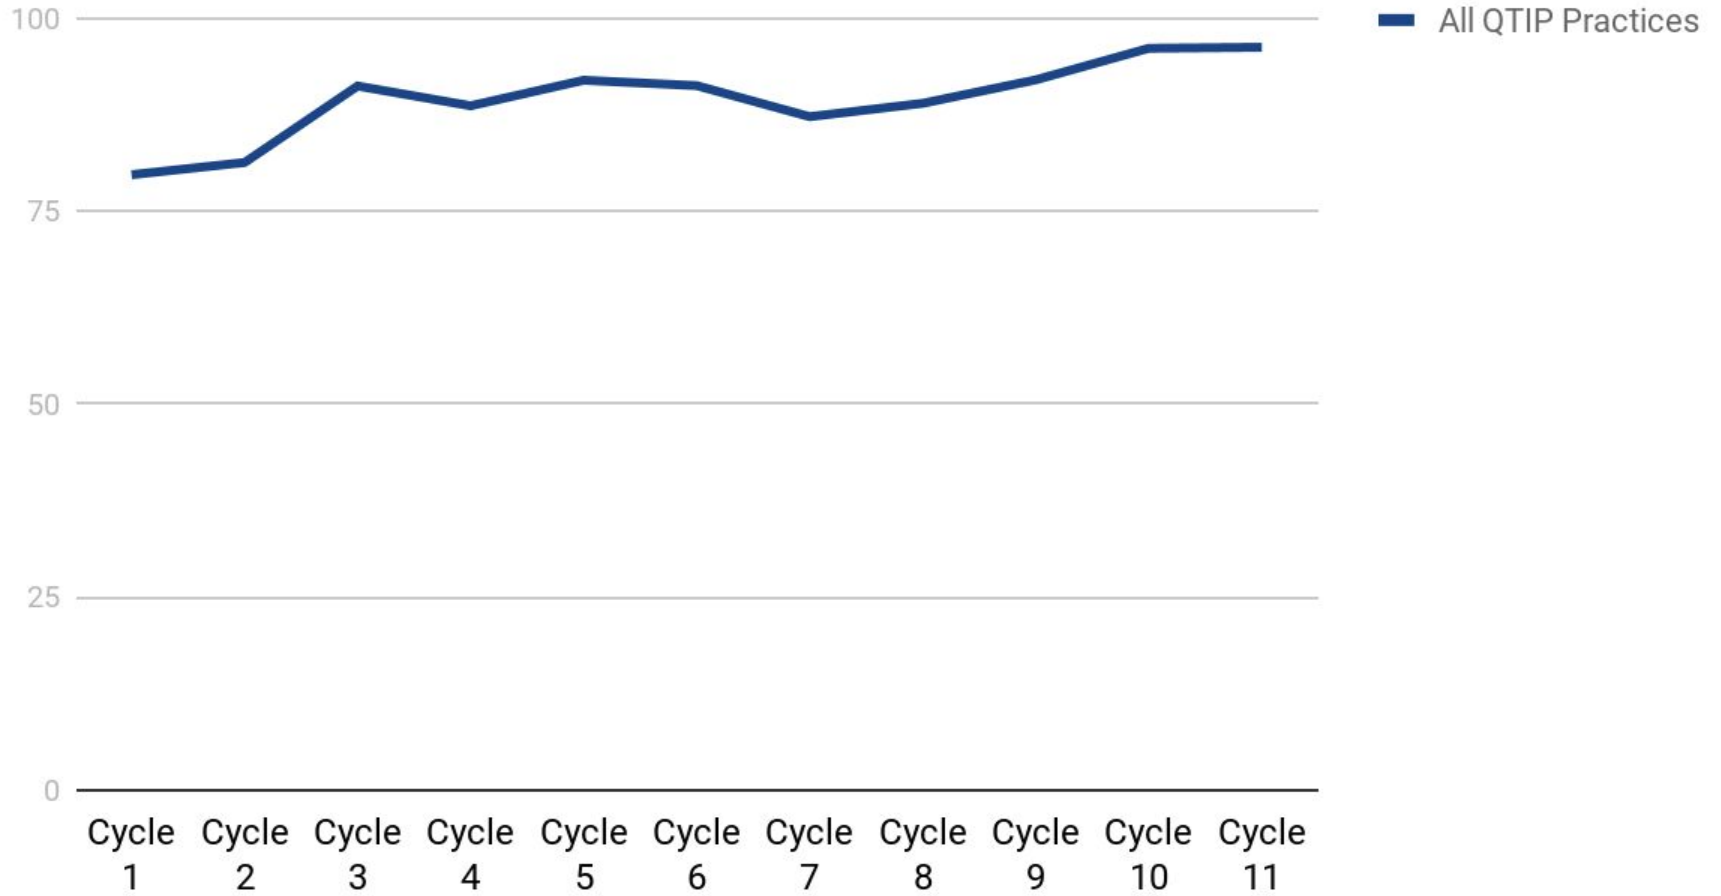

Social Determinants Screen

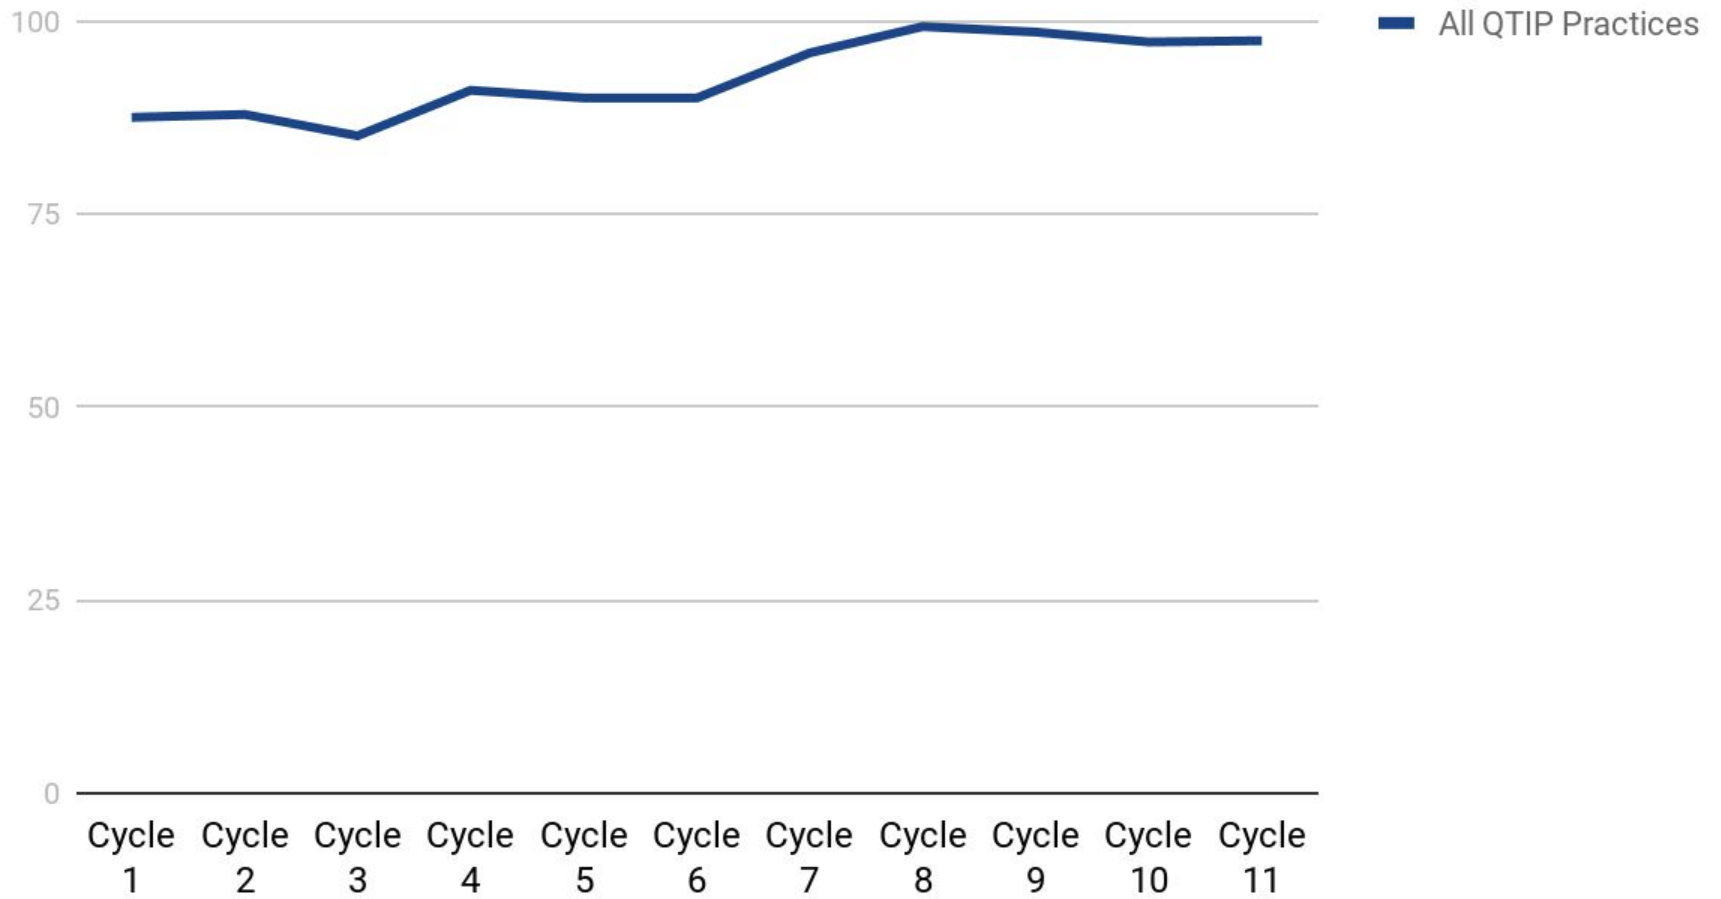

Reach Out and Read Book given

Postpartum Depression Screen

Family Screened for Tobacco Use

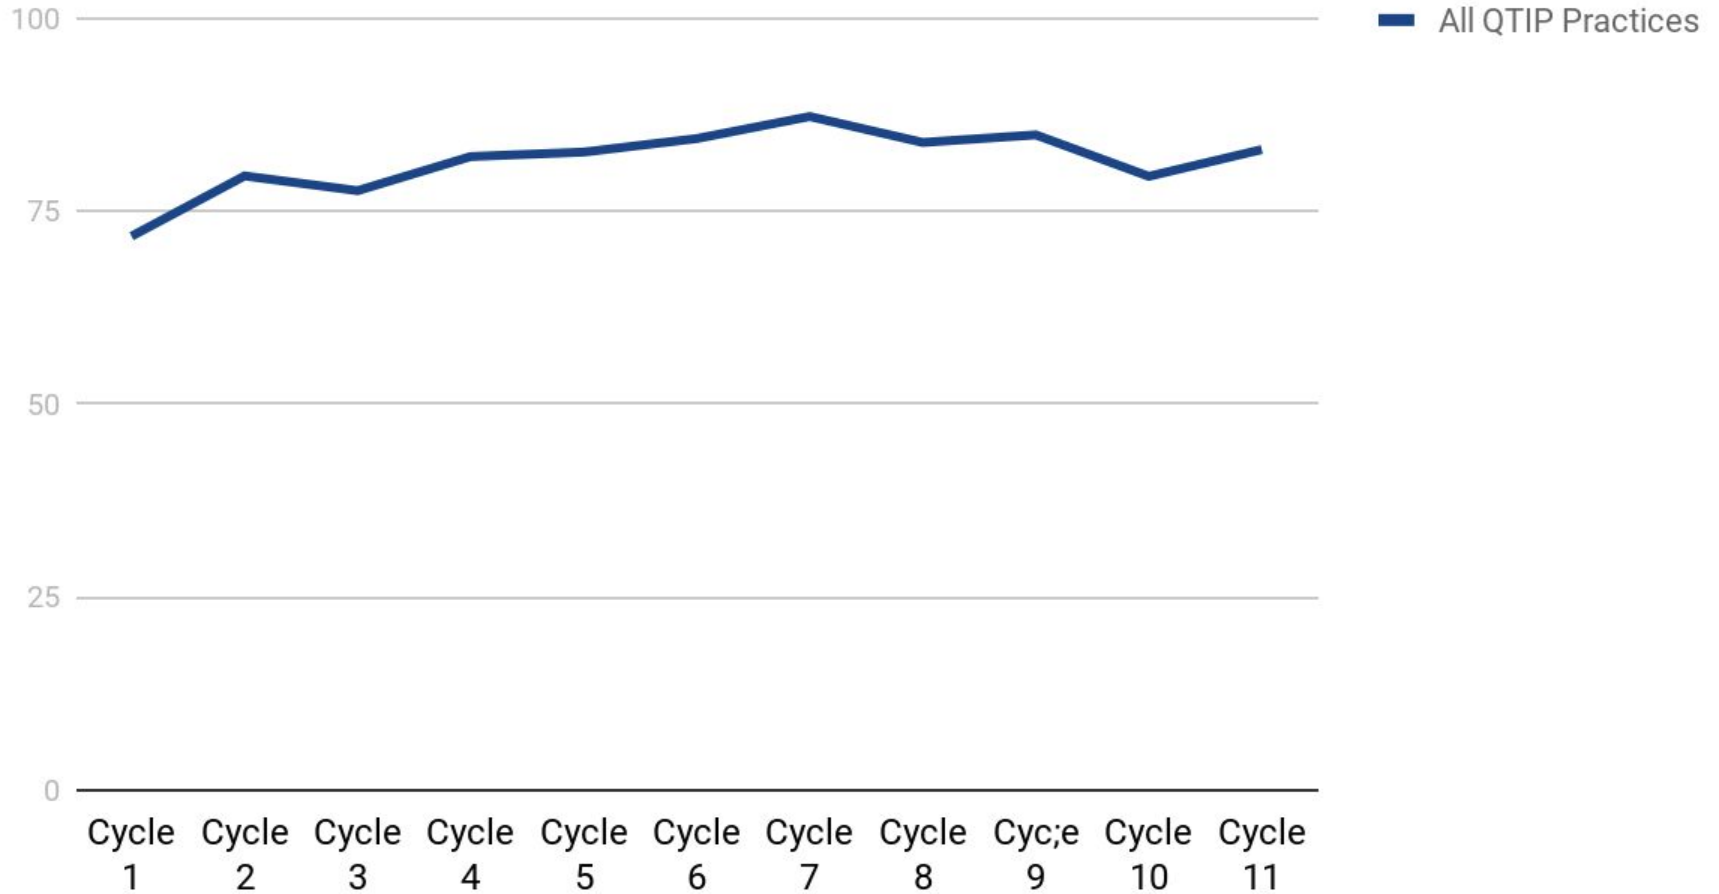

Improving ADHD Care

How did they do it ?

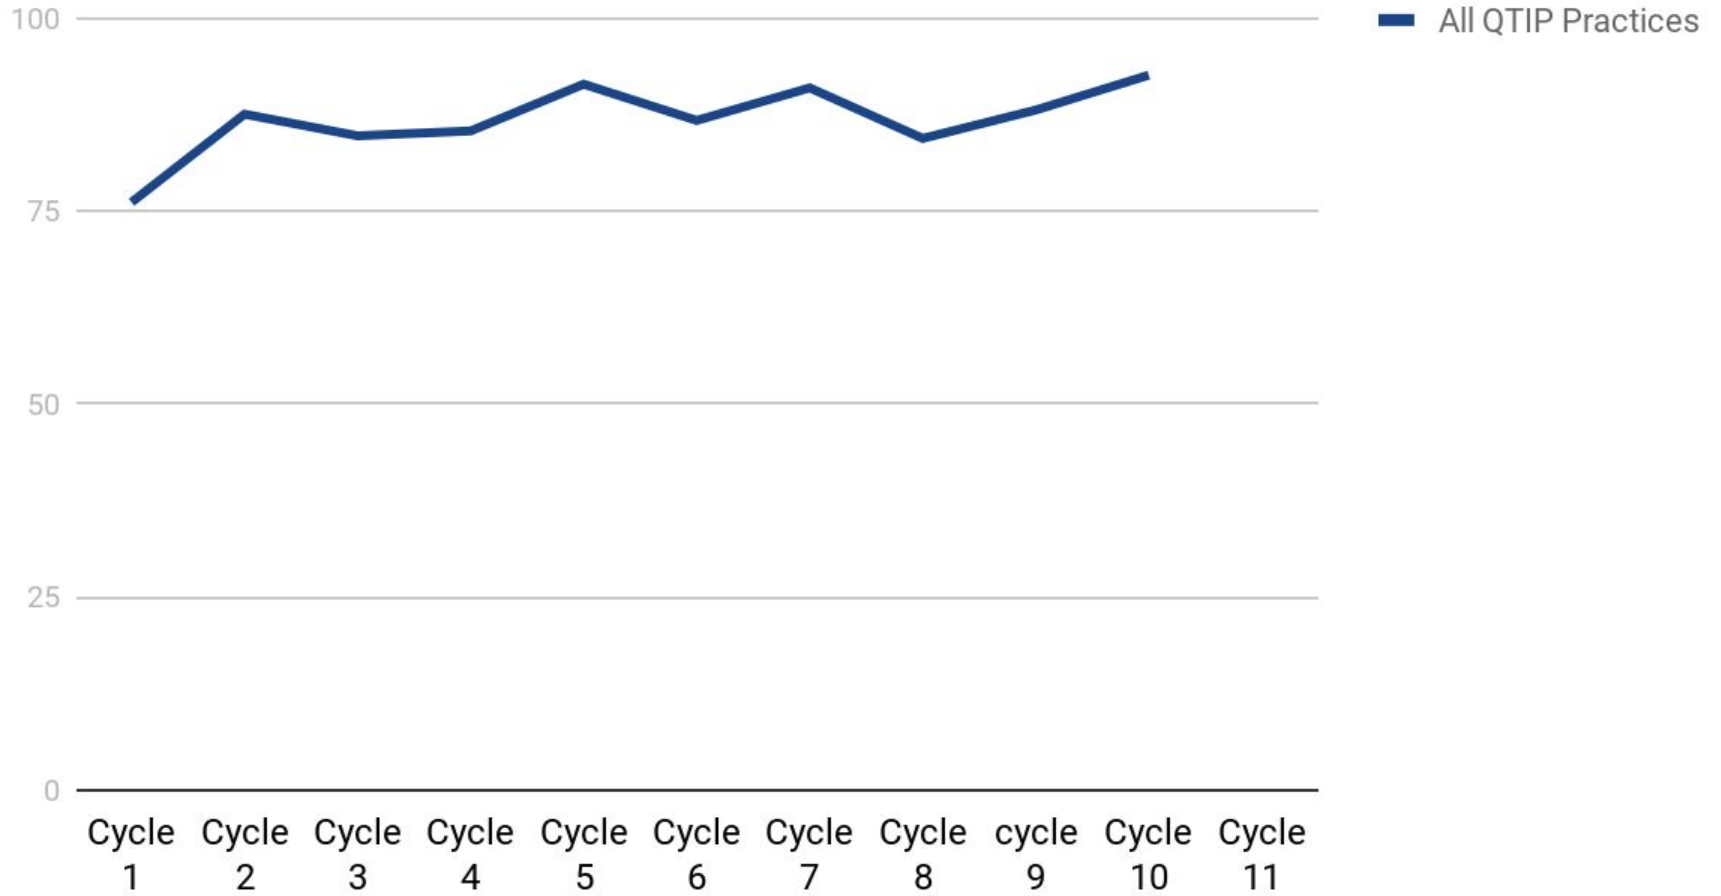

- Making new patients appointment only after the Standardised screens are in
- Making the initial follow up appointment at the same time
- Giving 3 weeks worth Medication instead of 30 day supply
- Identifying and documenting co-morbidities a priority
- Creating ADHD folders

What Did the QIDA show?

Follow up in 30 Days

Co-morbidities Identified

HOW DID QTIP DO ?(HEDIS 2018)

What did we do good ?

- Well Child visits (15mo, 3-6, Adolescent)
- Access to care
- Fluoride Varnish
- Asthma

HOW DID QTIP DO ?

What can we do better ?

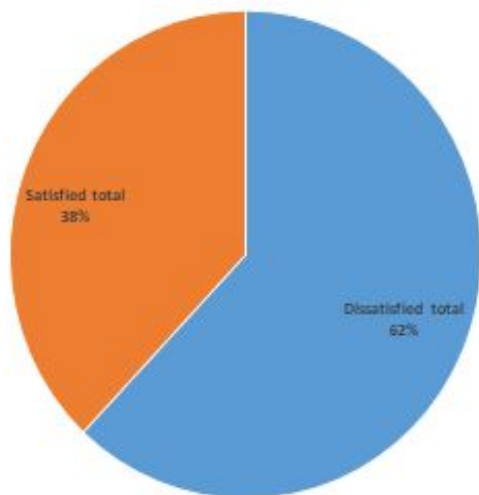

- Asthma
- Immunization(Especially HPV)
- Dental home

BEHAVIORAL HEALTH INTEGRATION

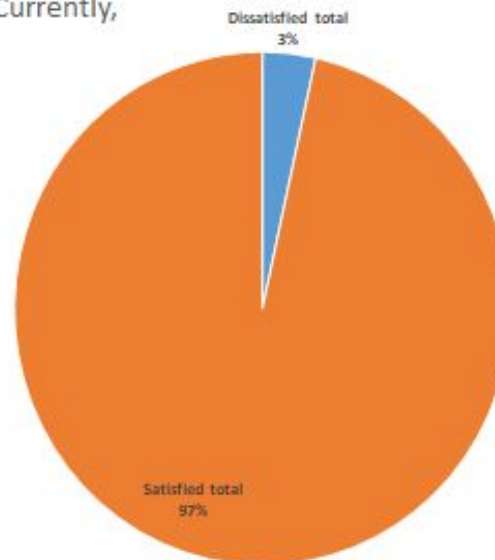

2019: How satisfied do/did you feel in your role as a provider of care to children and families with behavioral and emotional problems?

n = 29

Prior to QTIP,

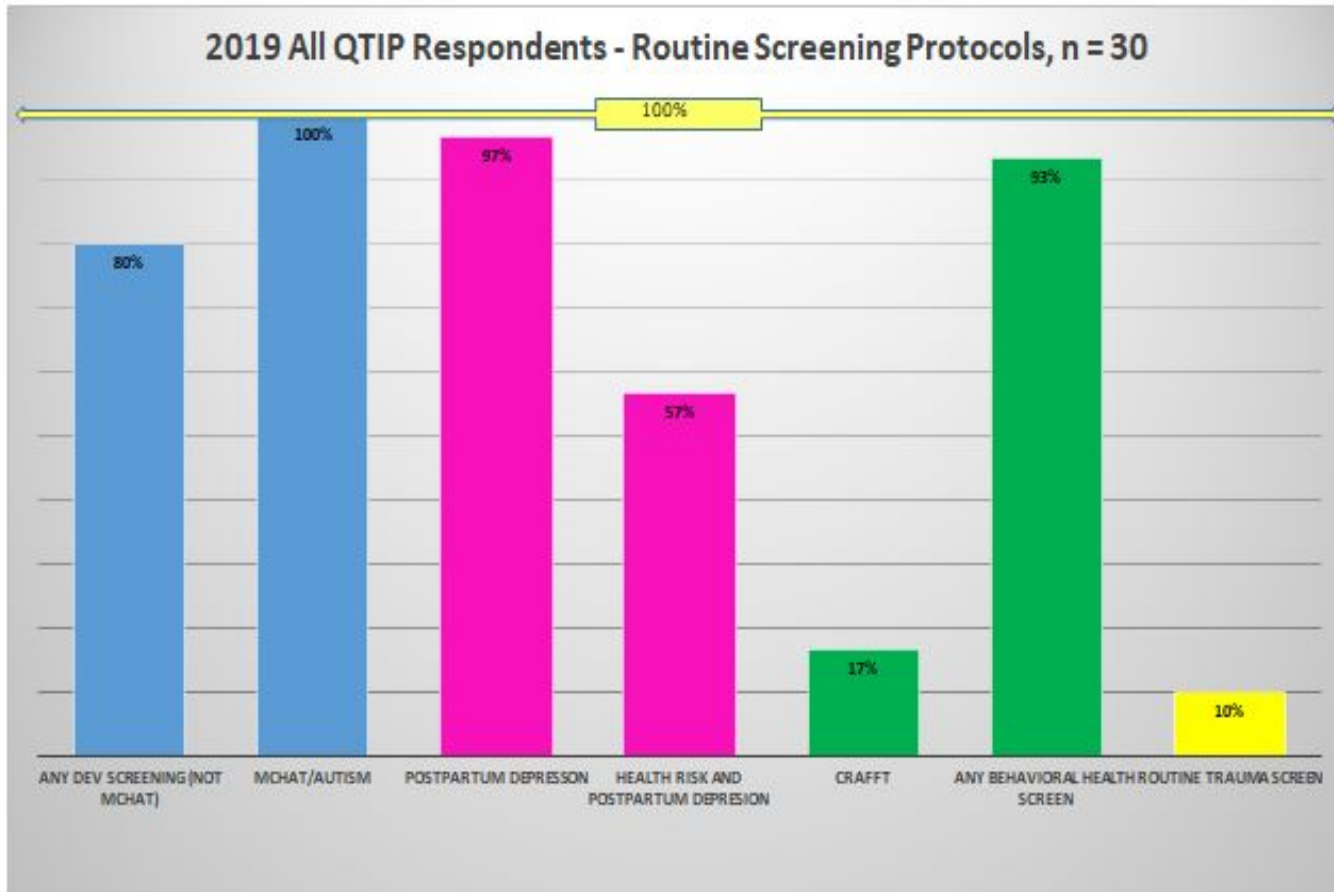

Currently,

1/3/2020

Draft results - do not distribute
