FY 2020-21 Proviso Changes

- **Amend five provisos:**

- **33.15 – CHIP Enrollment and Recertification – Amend – **AGENCY WITHDRAWN****

This proviso was amended in FY 2020 to direct the Agency to seek waivers or plan amendments necessary to increase the income threshold for CHIP eligibility from 213% of the current federal poverty limit to an amount at least at the Southeastern average. The Agency has submitted this request to CMS and anticipates waiver approval in FY 2020, rendering this provision unnecessary in FY 2021.

- **33.20 – Medicaid Accountability and Quality Improvement Initiative – Amend**

SCDHHS is requesting to strike a provision that allocated \$3.6 million in state funded contracts to Hospitals that provide services for certain uninsured, high-need beneficiaries as the Agency intends to provide hospitals an additional \$12 million for the provision of uncompensated care for individuals in FY 2021

- **33.22 – Rural Health Initiative – Amend**

SCDHHS recommends striking a one-year provision directing funding to a graduate medical education project cooperatively operated by three state institutions. The plan will be received and funded in FY 2020. SCDHHS also proposes striking obsolete rural hospital transformation language. The requested change is a technical amendment to update the reporting date.

- **33.23 – DHHS: BabyNet Compliance – Amend**

The requested change is a technical amendment to update the reporting date.

- **117.120 – South Carolina Telemedicine Network – Amend**

Delete reference to report as it will be completed in the current fiscal year.
