MEDICAID ALERT

TO: School Districts and Behavioral Health Providers

SUBJECT: List of School IDs to be Included on School-based Mental Health Claims Published

The South Carolina Department of Health and Human Services (SCDHHS) has published a list of the South Carolina Department of Education's unique school IDs in support of its school-based mental health services initiative. **The unique school ID must be included on claims submitted by providers for school-based mental health services.** The [list of unique school IDs](#) is published on SCDHHS' school-based mental health services [webpage](#).

As a reminder, claims filed for school-based mental health services will require specific modifier(s) to receive reimbursement and must be filed with a place of service of "03." These modifiers are available in the [alternative fee schedule](#) and will be discussed in pre-recorded training webinars designed for provider enrollment and claims submissions.

SCDHHS has published several resources for providers and school districts on its school-based mental health services [webpage](#). In addition to these resources, the agency will publish a pre-recorded training webinar on claims submissions. SCDHHS will announce the availability of this training webinar in a future communication.

Please direct any questions or concerns regarding these policy changes to the SCDHHS Office of Behavioral Health at behavioralhealth004@scdhhs.gov.

Thank you for your continued support of the South Carolina Healthy Connections Medicaid program.
