An attachment is submitted.

Provide a description of the structure of the state's executive branch which includes how the Medicaid agency fits in with other health, human service and public assistance agencies.

# Medicaid Administration

Under the South Carolina Constitution, the Governor is the head of government, serving as the chief executive of the South Carolina executive branch. The Governor appoints directors to 14 cabinet agencies, who are shared with the General Assembly and approved by the Senate. The other state social service cabinet agencies include: Department of Alcohol and Other Drug Abuse Services; Department of Social Services; and Department of Mental Health.

In an effort to efficiently utilize community resources, SCDHHS has entered into agreements with other agencies, including SCVRD, SCDHEC, SCCB, HeadStart, HUD, SCDSS, and SCDMH and SC DDSN to exchange services and enforce a cooperative agency relationship. The purpose of the agreements is to clarify the roles of the agencies, prevent duplication of services, improve communication, and ensure effective and efficient health care services.

SCDHHS and the South Carolina Vocational Rehabilitation Department (SCVRD) entered into an agreement with the purpose of creating a cooperative relationship between the two agencies. SCDHHS and SCVRD agreed to use the facilities of each agency for rehabilitating applicants and Medicaid beneficiaries, collaborate on cases and share information about clients, and respect the confidential nature of information by either agency. SCDHHS makes provisions for early access to medical and remedial care available through Medicaid, and provides for early identification and referral of vocational rehabilitation clients. SCVRD helps identify children who are enrolled in their programs and are eligible for Medicaid and the Early Periodic Screening and Diagnosis Treatment Program (EPSDT). SCDHHS accepts the referrals, determines the children's eligibility, assists the parents in scheduling a screening appointment if requested, and notifies SCVRD of any missed screening appointments. SCVRD provides medical transportation to and from the screening facility for EPSDT children enrolled in their programs.

SCDHHS and the South Carolina Department of Health and Environmental Control (SCDHEC) have entered into several agreements to provide services to beneficiaries. These services include Family Planning Services, Physician Services, Home Health Services, and EPSDT. Both agencies have agreed to collaborate to improve the health status of Medicaid eligible children with elevated blood lead levels, and SCDHEC has agreed to provide hearing aids to Medicaid recipients under the age of 21. SCDHEC is also required to survey and certify skilled nursing facilities for compliance with Federal standards for participation with Medicaid.

SCDHHS and the SC Commission for the Blind (SCCB) have agreed to engage in an exchange of services. In an effort to grant disabled persons opportunities for rehabilitation and assistance, each agency shares information regarding clients and programs, makes joint referrals, and respects the confidential nature of information available by either agency. SCDHHS has agreed to work with SCCB to ensure that Medicaid is used as a resource to service eligible clients who are being served by the SCCB.

SCDHHS and Head Start are both concerned with the early detection and treatment of childhood illnesses and disabilities. Many children enrolled in Head Start are also eligible for EPSDT services through Medicaid. The agencies are committed to communicating clearly with each other to ensure each child receives the health care they require. Head Start helps identify children in its program who are eligible for Medicaid services, explains the EPSDT Program to the children's parents, and notifies SCDHHS of its findings. SCDHHS processes the child's application and makes an eligibility determination. Upon request, SCDHHS schedules a screening appointment, and notifies Head Start of the appointment and the child's transportation arrangement. Head Start offers transportation to children enrolled in Medicaid when resources are available.

SCDHHS and the Department of Housing and Urban Development (HUD) are concerned with the early detection and treatment of illnesses and disabilities. Many children living in public housing are entitled to EPSDT services through Medicaid. HUD helps to identify children living in public housing who are eligible for Medicaid services, informs the children's parents about the EPSDT Program, and provides a list of children presumed eligible for EPSDT to SCDHHS. HUD encourages local housing authorities to provide medical transportation for EPSDT children living in public housing. SCDHHS accepts the list of referrals, and determines which children are eligible for EPSDT. Upon request, SCDHHS will assist the children's parents with scheduling a screening appointment and arranging transportation to and from the screening facility. If requested, SCDHHS will notify HUD of children who have missed screening appointments.

SCDHHS and the South Carolina Department of Social Services (SCDSS) work cooperatively to provide necessary and appropriate medical services to children in foster care. SCDSS has collaborated with DHHS to establish a medical home led by a primary care physician (PCP) with the goal of promoting better health outcomes for children in foster care. All children in foster care now have a medical home in which they receive ongoing primary care, timely referrals to appropriate specialty care, and periodic reassessments of their health. In addition, children in foster care benefit from expedited Medicaid eligibility upon first entering SCDSS foster care, and SCDSS provides Medicaid eligibility information to foster care youth regarding continued

coverage until 21 years of age. SCDHHS also has an automated monthly data match with the SCDSS to identify children not currently receiving Medicaid, but who are receiving Supplemental Nutrition Assistance Program (SNAP) and/or Family Independence (FI). This process is known as Express Lane Eligibility (ELE). Children who are not on Medicaid and receiving SNAP and/or FI are automatically eligible for Medicaid under Partners for Healthy Children (PHC).

SCDHHS and the South Carolina Department of Mental Health (SCDMH) share an expense agreement, allowing SCDMH to deploy entitlement specialists throughout the mental health system to ensure that clients are eligible and enrolled, or offered the opportunity to enroll, in Medicaid. This method provides an optimized environment for the client to acquire necessary enrollment information at the time of service. In addition, the two agencies collaborate to relieve overcrowding of psychiatric patients in local hospital emergency departments. The SCDMH Telepsychiatry Program provides 24/7 behavioral health consulting services to hospital emergency departments on a state-wide basis. The mission of the Program is to develop a telepsychiatry consultation system that provides best practice consultations in emergency departments throughout South Carolina.

SCDHHS and the South Carolina Department Disabilities and Special Needs (SCDDSN) offer Home and Community Based (HCB) Waiver Services. SCDHHS, through its Community Long Term Care (CLTC) Division, administers HCB Waivers to serve the elderly and disabled (Community Choices Waiver), people with HIV or AIDS (HIV/AIDS Waiver), and adults who are dependent on a life support system (Ventilator Dependent Waiver). In addition, SCDHHS partners with SCDDSN to offer waivers to serve people with head or spinal cord injuries (HASCI Waiver), people with intellectual disabilities or related disabilities (ID/RD Waiver), and people with pervasive developmental disorders (PDD Waiver). SCDHHS and SCDDSN offer the Community Supports Waiver as an option, which allows individuals with intellectual disabilities or related disabilities to choose to receive care at home rather than in an Intermediate Care Facility for Persons with Intellectual Disabilities (IFC/ID).

Method for Determining Cost Effectiveness of Caring for  
Certain Disabled Children at Home

On an annual basis, each recipient's expenditures will be measured against the cost of care in an institution to ensure that home care is more cost effective than institutional care.

For each recipient the cost of home care services to the Medicaid program must be no greater than the costs that would be incurred if the recipient were placed in an institution which meets the recipient's needs.
