

To whom it may concern;

Medical Ministries Inc. will use the proposed \$500,000 in revenue funding from the State of South Carolina to assist in the operations of our nine free and charitable clinics currently in operation in rural South Carolina. This money will directly help the poor and underserved of our state by providing access to health care that they might not otherwise receive.

While the total given by the state is not sufficient on its own to fund our clinics, an estimate of how all funds are allocated in our budget is listed below for your review.

Payroll	78%
Medical Supplies	11%
Outreach Programs	3%
Legal & Professional Fees	1%
Misc office expenses	7%

We would propose to use the state funding on a combination of payroll and medical supplies.

Thank you for your attention.

Sincerely,

Scott Sauer – CFO
Medical Ministries Inc.
