September 7, 2017

Ms. Deidra T. Singleton
Acting Director
SC Department of Health and Human Services
Post Office Box 8206
Columbia, South Carolina 29202-8206

Attention: Sheila Chavis

Re: South Carolina State Plan Amendment 17-0005

Dear Ms. Singleton:

We have reviewed the proposed South Carolina state plan amendment, SC 17-0005, which was submitted to the Centers for Medicare & Medicaid Services (CMS) on July 13, 2017. This amendment adds Autism Spectrum Disorder (ASD) services to medically eligible beneficiaries’ ages 0-21 to the State Plan.

Based on the information provided, the Medicaid State Plan Amendment SC 17-0005 was approved on September 7, 2017. The effective date of this amendment is July 1, 2017. We are enclosing the approved HCFA-179 and a copy of the new state plan pages.

If you have any additional questions or need further assistance, please contact Maria Drake at (404) 562-3697 or Maria.Drake@cms.hhs.gov, or Cheryl Wigfall at (803) 252-7299 or Cheryl.Wigfall@cms.hhs.gov.

Sincerely,

[Signature]

Shantrina Roberts
Acting Associate Regional Administrator
Division of Medicaid & Children’s Health Operations

FORM HCFA-179 (07-92)
Autism Spectrum Disorder (ASD) Treatment Services

General Description

Services to treat autism spectrum disorders (ASD), as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders, are provided to Medicaid beneficiaries under age twenty-one pursuant to the EPSDT benefit. Pursuant to Social Security Act Section 1905(a)(13) and 42 C.F.R. § 440.130(c), these services are provided as preventive services and must be recommended by a physician or other licensed practitioner of the healing arts within his or her scope of practice under state law to prevent the progression of ASD, prolong life, and promote the physical and mental health and efficiency of the individual. These services may be provided in the beneficiary’s home, in a clinic setting, or other settings as authorized in the applicable section of the SCDHHS provider manual.

Autism Spectrum Disorder (ASD) Treatment Services include a variety of behavioral interventions which have been identified as evidence-based by nationally recognized research reviews, identified as evidence-based by other nationally recognized substantial scientific and clinical evidence, and/or any other intervention supported by credible scientific or clinical evidence, as appropriate to each individual.

Autism Spectrum Disorder (ASD) Assessment and Treatment Services must be prior authorized.

Individuals Providing Services

ASD services shall be rendered by qualified individuals as follows:

Qualified individuals must be enrolled with SCDHHS as an ASD provider and must possess either a license to practice at the independent level from the state in which the individual renders services, or a national certification appropriate to the services they provide. Additional information regarding professional licenses, certifications, and the services that may be rendered by qualified individuals can be found in the ASD Services and Qualified Individuals Chart in the applicable section of the provider manual.

Licensed providers are:

- Licensed Psychologists;
- Licensed Independent Social Workers-Clinical Practice;
- Licensed Marriage and Family Therapist;
- Licensed Psycho-Educational Specialist;
- Licensed Professional Counselor
Allowable ASD services for licensed professionals:

- Treatment services - Direct beneficiary contact (and collaterals as clinically indicated) to render Evidence-Based Practice (EBP) services as listed in the provider manual to manage and ameliorate clinically significant symptoms and their day-to-day manifestations, as per the beneficiary’s Individualized Plan of Care (IPOC). For further information on EBPs please refer to the ASD Services Provider Manual.

Certified and credentialed providers include:

- Board Certified Behavior Analysts - Doctoral (BCBA-D) as defined by the Behavior Analyst Certification Board (BACB);
- Board Certified Behavior Analyst (BCBA) as defined by the BACB;
- Board Certified Assistant Behavior Analyst (BCaBA) under supervision as defined by the BACB;
- Registered Behavior Technician (RBT) under supervision as defined by the BACB.

Allowable Autism Spectrum Disorder (ASD) Treatment Services for certified providers, as per competency level, include:

- Behavior identification assessment - Direct beneficiary contact (and collaterals as clinically indicated) in order to identify maladaptive behaviors, completing a mental health evaluation to establish treatment needs and a treatment plan. This service may include psychological testing, as clinically indicated.
- Observational behavioral follow-up assessment - Direct beneficiary contact (and collaterals as clinically indicated) to identify and evaluate factors that may impede adaptive behavior. This assessment includes structured observation and/or standardized tests to determine adaptive behavior. This service may include psychological testing, as clinically indicated.
- Exposure behavior follow-up assessment: Direct beneficiary contact to examine triggers, events, cues, responses, and consequences associated with maladaptive behavior.
- Adaptive behavior treatment - Direct beneficiary contact (and collaterals as clinically indicated) to address the beneficiary’s treatment goals as defined by the assessments and Individualized Plan of Care (IPOC). Adaptive behavior treatment includes analysis and alteration of motivating factors and contextual events, stimulus-consequence strategies and replacement behavior, as well as the monitoring of outcome variables.
- Family adaptive behavior treatment guidance - Direct contact with the family/caregiver for specialized training and education to assist with the beneficiary’s treatment goals and development. The provider observes and trains the family/caregivers on the beneficiary’s status, as well as instructs family/caregivers on techniques to promote the child’s development.
Autism Services

Effective for services provided on and after July 1, 2017, the Medicaid agency will reimburse both private and governmental providers of autism services based upon a state developed fee schedule. The services to be provided under this section are as follows and can be accessed via the following agency website address:
https://m setattr.scdhhs.gov/autism/site-page/fee-schedule

In order to determine the fee schedule rates for the procedure code rates listed above, the agency first employed the use of its current Pervasive Developmental Disorder Waiver (PDD) rates and cross-walked the rates and PDD procedure codes to the new autism service procedure codes. To determine an hourly rate for the services provided by a Board Certified Behavior Analyst (BCBA) and a Board Certified Assistant Behavior Analyst (BCaBA), the Medicaid Agency used the midpoint of the comparable South Carolina state government positions and determined the average hourly rate for BCBA/BCaBA staff. After applying the applicable fringe rate and adding estimated operational expenses (travel, training and 10% indirect rate), the sum was divided by an estimated number of billable hours to determine an hourly billing rate. To convert the hourly rate to a thirty minute unit rate, the Medicaid agency simply reduced the hourly rate by fifty percent. This methodology would apply to procedure codes 0368T, 0369T, and 0370T. The rate for procedure code 0359T provided by BCBA/BCaBA staff is derived from comparable state developed fee schedule rates currently in existence.
To determine an hourly rate for the services provided by a Registered Behavior Technician I (RBT I) or a Registered Behavior Technician II (RBT II), the Medicaid Agency used the midpoint of the comparable South Carolina state government position and determined the average hourly rate for a RBT I as well as a RBT II. After applying the applicable fringe rate and adding estimated operational expenses (travel, training and 10% indirect rate) for a RBT I and a RBT II, the sum of each position was divided by an estimated number of billable hours to determine an hourly billing rate. To convert the hourly rate to a thirty minute unit rate, the Medicaid agency simply reduced the hourly rate by fifty percent. Because procedure codes 0360T, 0361T, 0362T thru 0365T account for the majority of services provided under this section, the Medicaid Agency applied a 27.25% trend factor to these procedure code rates to ensure adequate compensation for the services provided.

Finally, to determine the rates for procedure codes 90791 and H2019, the rates were established using state developed fee schedule rates currently in effect as follows:

- Procedure code H2019 was priced by using the rate paid to private providers of mental health services under procedure code 90832 provided by a masters level individual and reduced by 50% to account for the change in unit measurement (i.e. from 30 minutes to 15 minutes).

- Procedure code 90791 was priced by using the rate paid to private providers of mental health services and provided by a master’s level individual.
