4.24 Standards for Payments for Nursing Facility and Intermediate Care Facility for the Mentally Retarded Services

With respect to nursing facilities and intermediate care facilities for the mentally retarded, all applicable requirements of 42 CFR Part 442, Subparts B and C are met.

Not applicable to intermediate care facilities for the mentally retarded; such services are not provided under this plan.
The State has a program that, except with respect to Christian Science sanatoria, meets the requirements of 42 CFR Part 431, Subpart N, for the licensing of nursing home administrators.
The Medicaid agency meets the requirements of Section 1927 (g) of the Act for a drug utilization review (DUR) program for outpatient drug claims.

2. The DUR program assures that prescriptions for outpatient drugs are:
   - Appropriate
   - Medically necessary
   - Are not likely to result in adverse medical results

The DUR Program is designed to educate physicians and pharmacists to identify and reduce the frequency of patterns of fraud, abuse, gross overuse, or inappropriate or medically unnecessary care among physicians, pharmacists, and patients or associated with specific drugs as well as:
   - Potential and actual adverse drug reactions
   - Therapeutic appropriateness
   - Overutilization and underutilization
   - Appropriate use of generic products
   - Therapeutic duplication
   - Drug disease contraindications
   - Drug-drug interactions
   - Incorrect drug dosage or duration of drug treatment
   - Drug-allergy interactions
   - Clinical abuse/misuse

The DUR program shall assess data use against predetermined standards whose source materials for their development are consistent with peer-reviewed medical literature which has been critically reviewed by unbiased independent experts and the following compendia:
   - American Hospital Formulary Service Drug Information
   - United States Pharmacopeia—Drug Information
   - American Medical Association Drug Evaluations
DUR is not required for drugs dispensed to residents of nursing facilities that are in compliance with drug regimen review procedures set forth in 42 CFR 483.60. The State has never-the-less chosen to include nursing home drugs in:

- Prospective DUR
- Retrospective DUR.

The DUR program includes prospective review of drug therapy at the point of sale or point of distribution before each prescription is filled or delivered to the Medicaid recipient.

Prospective DUR includes screening each prescription filled or delivered to an individual receiving benefits for potential drug therapy problems due to:

- Therapeutic duplication
- Drug-disease contraindications
- Drug-drug interactions
- Drug-interactions with non-prescription or over-the-counter drugs
- Incorrect drug dosage or duration of drug treatment
- Drug allergy interactions
- Clinical abuse/misuse

Prospective DUR includes counseling for Medicaid recipients based on standards established by State law and maintenance of patient profiles.

The DUR program includes retrospective DUR through its mechanized drug claims processing and information retrieval system or otherwise which undertakes ongoing periodic examination of claims data and other records to identify:

- Patterns of fraud and abuse
- Gross overuse
- Inappropriate or medically unnecessary care among physicians, pharmacists, Medicaid recipients, or associated with specific drugs or groups of drugs.
The DUR program assesses data on drug use against explicit predetermined standards including but not limited to monitoring for:

- Therapeutic appropriateness
- Overutilization and underutilization
- Appropriate use of generic products
- Therapeutic duplication
- Drug-disease contraindications
- Drug-drug interactions
- Incorrect drug dosage/duration of drug treatment
- Clinical abuse/misuse

The DUR program through its State DUR Board, using data provided by the Board, provides for active and ongoing educational outreach programs to educate practitioners on common drug therapy problems to improve prescribing and dispensing practices.

The DUR program has established a State DUR Board either:

- Directly, or
- Under contract with a private organization

The DUR Board membership includes health professionals (one-third licensed actively practicing pharmacists and one-third but no more than 51 percent licensed and actively practicing physicians) with knowledge and experience in one or more of the following:

- Clinically appropriate prescribing of covered outpatient drugs.
- Clinically appropriate dispensing and monitoring of covered outpatient drugs.
- Drug use review, evaluation and intervention.
- Medical quality assurance.

The activities of the DUR Board include:

- Retrospective DUR,
- Application of Standards as defined in section 1927(g)(2)(C), and
- Ongoing interventions for physicians and pharmacists targeted toward therapy problems or individuals identified in the course of retrospective DUR.
The interventions include in appropriate instances:

- Information dissemination
- Written, oral, and electronic reminders
- Face-to-Face discussions
- Intensified monitoring/review of prescribers/dispensers

The State assures that it will prepare and submit an annual report to the Secretary, which incorporates a report from the State DUR Board, and that the State will adhere to the plans, steps, procedures as described in the report.

The State establishes, as its principal means of processing claims for covered outpatient drugs under this title, a point-of-sale electronic claims management system to perform on-line:

- Real time eligibility verification
- Claims data capture
- Adjudication of claims
- Assistance to pharmacists, etc. applying for and receiving payment.

Prospective DUR is performed using an electronic point of sale drug claims processing system.

Hospitals which dispense covered outpatient drugs are exempted from the drug utilization review requirements of this section when facilities use drug formulary systems and bill the Medicaid program no more than the hospital’s purchasing cost for such covered outpatient drugs.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: South Carolina

Currently SCDHHS has a signed agreement to receive the data matches with other states. There are no current signed agreements to receive VA and Department of Defense matches. Note: These agreements cannot be signed until DHHS is able to determine that the MEDS Security protocols are consistent with those set by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST) Publication 800-53, Revision 1.

Interstate Matches:
A response file is returned to DHHS that identifies Medicaid applicants and recipients who are receiving or have received Medicaid, TANF, SNAP, SSI, General Assistance, Workers Compensation, or child care in more than one participating state for the same period. The DHHS Medicaid Eligibility Determination System (MEDS) processes the incoming response file and makes the information received available through online screens. Eligibility workers are alerted to verify the whereabouts of the recipient during the overlapping period and terminate the Medicaid, if appropriate. At this time, the agencies that administer TANF, SNAP, General Assistance, Worker Compensation and Child Care do not participate, although there have been some requests for information from the Department of Social Services (TANF, SNAP, General Assistance, Child Care).

Veteran's Administration:
The match with the Veteran's Administration would identify persons receiving VA compensation and pensions. This information would be made available to the worker for eligibility determinations and reviews. Workers would be alerted to determine if the receipt of VA compensation and benefits impacts the eligibility decision.

Department of Defense:
The match with the Department of Defense would identify persons receiving Federal employee wages and pensions. This includes wages for active and retired military personnel and active and retired non-postal Federal civilian employees. This information would be made available to the worker for eligibility determinations and reviews. Workers would be alerted to determine if the receipt of federal wages and pensions impacts the eligibility decision.
The State Medicaid agency has established procedures for the verification of alien status through the Immigration & Naturalization Service (INS) designated system, Systematic Alien Verification for Entitlements (SAVE), effective October 1, 1988.

- The State Medicaid agency has elected to participate in the option period of October 1, 1987 to September 30, 1988 to verify alien status through the INS designated system (SAVE).

- The State Medicaid agency has received the following type(s) of waiver from participation in SAVE.
  - Total waiver
  - Alternative system

☐ (1) Public recognition.
☐ (2) Incentive payments.
Enforcement of Compliance for Nursing Facilities

(a) Notification of Enforcement Remedies

When taking an enforcement action against a non-State operated NF, the State provides notification in accordance with 42 CFR §488.402(f).

(i) The notice (except for civil money penalties and State monitoring) specifies the:

(1) nature of noncompliance,
(2) which remedy is imposed,
(3) effective date of the remedy, and
(4) right to appeal the determination leading to the remedy.

(ii) The notice for civil money penalties is in writing and contains the information specified in 42 CFR §488.434.

(iii) Except for civil money penalties and State monitoring, notice is given at least 2 calendar days before the effective date of the enforcement remedy for immediately jeopardy situations and at least 15 calendar days before the effective date of the enforcement remedy when immediate jeopardy does not exist.

(iv) Notification of termination is given to the facility and to the public at least 2 calendar days before the remedy’s effective date if the noncompliance constitutes immediate jeopardy and at least 15 calendar days before the remedy’s effective date if the noncompliance does not constitute immediate jeopardy. The State must terminate the provider agreement of an NF in accordance with procedures in parts 431 and 442.

(b) Factors to be Considered in Selecting Remedies

(i) In determining the seriousness of deficiencies, the State considers the factors specified in 42 CFR §488.404(b)(1) & (2).

42 CFR §488.417(b) §1919(h)(2)(C) of the Act.

(ii) The State imposes the denial of payment (or its approved alternative) with respect to any individual admitted to an NF that has not come into substantial compliance within 3 months after the last day of the survey.

(iii) The State imposes the denial of payment for new admissions remedy as specified in §488.417 (or its approved alternative) and a State monitor as specified at §488.422, when a facility has been found to have provided substandard quality of care on the last three consecutive standard surveys.

(iv) The State follows the criteria specified at 42 CFR §488.408(c)(2), §488.408(d)(2), and §488.408(e)(2), when it imposes remedies in place of or in addition to termination.

42 CFR §488.412(a)

(v) When immediate jeopardy does not exist, the State terminates an NF’s provider agreement no later than 6 months from the finding of noncompliance, if the conditions of 42 CFR 488.412(a) are met.

(d) Available Remedies

42 CFR §488.406(b) §1919(h)(2)(A) of the Act.

4.42 Employee Education About False Claims Recoveries.

(a) The Medicaid agency meets the requirements regarding establishment of policies and procedures for the education of employees of entities covered by section 1902(a)(68) of the Social Security Act (the Act) regarding false claims recoveries and methodologies for oversight of entities’ compliance with these requirements.

(1) Definitions.

(A) An “entity” includes a governmental agency, organization, unit, corporation, partnership, or other business arrangement (including any Medicaid managed care organization, irrespective of the form of business structure or arrangement by which it exists), whether for-profit or not-for-profit, which receives or makes payments, under a State Plan approved under title XIX or under any waiver of such plan, totaling at least $5,000,000 annually.

If an entity furnishes items or services at more than a single location or under more than one contractual or other payment arrangement, the provisions of section 1902(a)(68) apply if the aggregate payments to that entity meet the $5,000,000 annual threshold. This applies whether the entity submits claims for payments using one or more provider identification or tax identification numbers.

A governmental component providing Medicaid health care items or services for which Medicaid payments are made would qualify as an “entity” (e.g., a state mental health agency).

health facility or school district providing school-based health services). A government agency which merely administers the Medicaid program, in whole or part (e.g., managing the claims processing system or determining beneficiary eligibility), is not, for these purposes, considered to be an entity.

An entity will have met the $5,000,000 annual threshold as of January 1, 2007, if it received or made payments in that amount in Federal fiscal year 2006. Future determinations regarding an entity’s responsibility stemming from the requirements of section 1902(a)(68) will be made by January 1 of each subsequent year, based upon the amount of payments an entity either received or made under the State Plan during the preceding Federal fiscal year.

(B) An “employee” includes any officer or employee of the entity.

(C) A “contractor” or “agent” includes any contractor, subcontractor, agent, or other person which or who, on behalf of the entity, furnishes, or otherwise authorizes the furnishing of, Medicaid health care items or services, performs billing or coding functions, or is involved in the monitoring of health care provided by the entity.

(2) The entity must establish and disseminate written policies which must also be adopted by its contractors or agents. Written policies may be on paper or in electronic form, but must be readily available to all employees, contractors, or agents. The entity need not create an employee handbook if none already exists.
(3) An entity shall establish written policies for all employees (including management), and of any contractor or agent of the entity, that include detailed information about the False Claims Act and the other provisions named in section 1902(a)(68)(A). The entity shall include in those written policies detailed information about the entity’s policies and procedures for detecting and preventing waste, fraud, and abuse. The entity shall also include in any employee handbook a specific discussion of the laws described in the written policies, the rights of employees to be protected as whistleblowers and a specific discussion of the entity’s policies and procedures for detecting and preventing fraud, waste, and abuse.

(4) The requirements of this law should be incorporated into each State’s provider enrollment agreements.

(5) The State will implement this State Plan amendment on January 1, 2007.

(b) ATTACHMENT 4.42-A describes, in accordance with section 1902(a)(68) of the Act, the methodology of compliance oversight and the frequency with which the State will re-assess compliance on an ongoing basis.
