Please explain how these funds will be used to provide a public benefit:

Funds provided will enable The Medi to expand our capacity to build community through education, resource engagement and technology to enable connectivity to those resource providers. Our continued focus will be to build community coalitions, collective knowledge, share best practices and experiences, with a shared vision to change the pattern of social determinants of health and the elimination of health disparities. Our ability to do this has been challenged in the past with limited operational funds. Our capacity to manage has also been limited to an array of dedicated and passionate volunteers. These funds help us engage technology where needed, gain advice and counsel from legal and accounting consultants, and to remain focused on our overall mission of supporting and building a patient centered support system.
