

## What does this mean to you?

- All practices should submit their breastfeeding audits at the beginning of each month. If you cannot submit your audit please contact us and let us know.
- We are encouraging new practices to audit their ADHD patients at the beginning of each month
- Other options include continuing work on the 3 to 6 year olds, asthma, or adolescents
- All practices should be doing at least two audit each month, and should keep with the same audits for at least 6 months
- We encourage our QTIP office-based QI teams to continue to think through care coordination and mental health issues.
