- Billing Process & Service Log Deletions
  - BabyNet Brief – Service Log Deletions

- The Financial Support, Planned Services, Service Log and Accounts Payable are all connected. Errors on one screen will impact the other screens and cause billing and payment errors.
    - The BabyNet Documentation and Billing Guidance video has been uploaded to SCEILS. The guidance provides clarification for the billing process and service log deletions.
    - HIIRF – If there is an end date for private insurance on the Financial Support screen, but the family still has an active PI policy, you will need to submit a HIIRF to [OHI.Priorities@bcbssc.com](mailto:OHI.Priorities@bcbssc.com). Communicate with the family regularly about the status of their policy to ensure there are no billing errors and that providers receive timely payments.
