HIPAA Complaint Database	\$14,000.00	Funding to have a HIPPA database to track statewide client results/info.
Statewide PR & Marketing	\$10,000.00	Funding to ensure the public is aware of services expanding in the state.
Grand Total	\$350,000.00	

Please explain how these funds will be used to provide a public benefit:

Vision loss is a tremendous loss. It significantly impacts every detail of an individual's daily life. In addition to a loss of independence, people with low vision report a higher prevalence of chronic health conditions that include depression, stroke, kidney disease and diabetes. Without the knowledge of assistive devices, techniques and technologies, individuals are unable to live safely and independently in their homes and communities. As a society, we tend to accept vision loss and the lack of independence, isolation, etc. It creates as a function of aging. However, losing one's vision does not have to be the end of independence or quality of life. It can be the beginning of a new way of life via vision rehabilitation adjustment training. These funds are allowing us to expand our reach and services within the state including areas around the I-95 corridor where vision impairment rates are the highest. These funds are allowing us to help more individuals in South Carolina live safe, happy, healthy, independent lives through adjustment to blindness training.
