Plan/Accounting of how these funds will be spent:		
Description	Budget	Explanation
Architectural/ Engineering Fees	\$50,000.00	
Construction documents and permitting	\$25,000.00	
Renovations to structure as determined by the architectural and engineering studies	\$675,000.00	
Grand Total	\$750,000.00	

Please explain how these funds will be used to provide a public benefit:

The Town is actively working to recruit public and private uses that will serve the community, including the potential for converting one room of the main building into a quality, rural healthcare facility. The Town currently has one general practitioner doctor located in an old house in Town and the nearest hospital is over 25 miles away in Mt. Pleasant. Having a larger, more modern facility will allow for other specialty doctors and medical services for their residents and the residents of the surrounding rural area. As noted by the current physician, the lack of access to quality healthcare in the area has led to the increased complexity and severity of health problems in his patients. The Town's hope is that improved access to healthcare will improve the health outcomes for the residents of the Town and surrounding areas. This potential use would only occupy a small portion of the building so there are numerous opportunities for other collaborations. Ideas for uses of the other portions of the remaining space include a library, welcome center, incubator space, arts center, make space, education, offices for state or federal agencies, social programs, small and large community meetings and a senior center. The Town has been meeting with local stakeholders and potential users for the past year. The Town will retain ownership of the facility and will direct all use of the property.
